Criteria for bid evaluation:

Those who will qualify in following quality parameters, will be assessed for other technical parameters.

Quality Parameters:

It is mandatory for all bidders to submit the required samples along with their submitted bid. To qualify in the technical evaluation phase, 100% compliance with the specified quality standards is essential. The samples may also be tested through a laboratory. The details of the required samples are as follows:

Technical score parameters:

In addition to price, following factors shall also be considered for bid evaluation. Marking scheme for evaluation of technical bid is also given below. The minimum technical score (St) required to pass is **70%.** The lowest evaluated Financial Proposal (Fm) is given the maximum financial score (Sf) of 100. The formula for determining the financial scores (Sf) of all other proposals is calculated as following: $Sf = 100 \times Fm/F$, in which "Sf" is the financial score, "Fm" is the lowest price, and "F" the price of the proposal under consideration. The weights given to the Technical (T) and Financial (P) Proposals are: T = 20 and P = 80

Proposals are ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1) as following: $S = St \times T\% + Sf \times P\%$.
